

If you're looking for optimal access to Southern California, including the West Coast's two largest ports, look no further than the City of Industry. When it comes to meeting your warehousing needs in the area, there's no company quite like APL Logistics, which is proud to operate 400,000 square feet of C-TPAT-certified, value-added space in this dynamic market.

Your Ideal West Coast Partner

Strategically located just outside of LA's and Long Beach's high-traffic harbor areas and situated near the BNSF rail hub, APL Logistics' City of Industry facility features easy access to Highway 60 and I-10. Just as important, it has everything your company needs to perform a wide range of value-added services more quickly and economically, including clamp trucks, rolling conveyors and WMS technology solutions. Plus it comes complete with specialized product handling and storage areas, a continuous improvement approach – and APL Logistics' industry-leading expertise.

Our company has spent decades establishing a global network that now encompasses 60 countries strong – all while becoming one of the world's most trusted warehousing resources. Let us turn that experience and capacity into a stronger West Coast supply chain presence for you.

Email global_marketing@aplogistics.com today to schedule a facility tour.
