

REGIONAL NETWORK UPDATE COVID-19

REGIONAL NETWORK UPDATE: GREATER ASIA

July 16, 2020,

Generally, in many countries throughout Asia we are seeing some increases in case numbers and governments are beginning or preparing to re-impose various levels of social distancing measures.

We continue to deploy work-from-home as needed and our current operations remain unchanged. We are monitoring the situation and will work directly with customers in the event of any impact or potential impact.

Please refer to the [COVID-19 Operational Status Matrix here](#) for most recent detailed regional updates.

Global cases can be tracked [by accessing this live map created by Johns Hopkins University](#).
